

## Bulky & Warm Neck Wrap

Materials: 2 Skeins Lion Brand Thick & Quick yarn, size 17 needles (if you know that your gauge is loose use a smaller needle like 13's or 15's), 1 tapestry needle, 1 extra-large button.

Pattern: Cast on 17 stitches. ROW 1 and all rows: Slip the first stitch purl-wise, k1 ,p1 across the row until 2 stitches are left, k1 , k last stitch in the back of the stitch. Knit this row until 33" in length.

BUTTONHOLE ROW: Work first 8 stitches of row in moss stitch pattern, cast off 2 stitches, and then work in pattern until the end of the row. NEXT

ROW: Work until cast-off stitches, cast on 2 stitches, work until end of row.

Work for 2" beyond the buttonhole, and then bind off loosely. Weave in all loose ends, choose a cool button and sew it on. On the green scarf, I sewed the button on so the ends overlap. On the black scarf, I sewed the button on so the scarf ends meet at a 90 degree angle. Enjoy this pattern! It only takes a few hours to knit :)

I updated this pattern (Nov. 26, 2011) because I am knitting a few of these for my nieces for Christmas and I discovered that I didn't have enough yarn with just one ball to finish the wrap. So, I purchased a second ball. I'm pretty sure that Lion Brand changed the yardage in the Wool-ease Thick & Quick yarn...in their favor.
